

Access Guide to Martlesham Heath Pavilion

Venue situation and car parking

The Pavilion (a black weather boarded, single storey building) is situated overlooking the Village Green in an area called **The Drift - post code IP5 3UY** and is approached by road by exiting Eagle Way (the main ring road for Martlesham Heath) onto Valiant Road and then further turning off this road into a 'free of charge' car parking area providing very close vehicular access.

This carpark is situated directly behind the Pavilion building, to one side of St Michael's Church and adjacent to the play area at the rear of the Pavilion. Once parked, users can proceed from the carpark via a dropped kerb and short paved pathway running between the Pavilion and the Church towards the front of the Pavilion. A permanent ramp (with a gradual incline and green handrails on either side) runs along the front of the Pavilion towards its front door.

Wheelchair Users

- **Outside Access** as described above – there is a dropped kerb between the parking area and the paved path leading to the entrance (overlooking the Green) which connects with the permanent concrete ramp with handrails on either side leading up to the exterior door (width 900mm) of the Pavilion.
- **Inside Access** there is level access to all areas within the Pavilion and lighting levels are bright.

Accessible Unisex Toilet

This is immediately to the right of the main entrance door as you enter the Pavilion

Features and Dimensions

- No key is required; the dimensions of the room are 2200mm x 1500mm
- Baby Change facilities are also available within this room
- No disposal facilities – soiled nappies, wipes, etc. must be removed at the end of each hiring.

Additional Information

- A number of seats with arm rests are available within the Main Hall
- A loop Hearing Aid system is available
- Guide or Assistance Dogs are welcome
- A wall mounted First Aid Kit is situated within the kitchen area to the left of the door

Fire Alarms and Exits

- Emergency Lighting is activated in all areas in the event of a power cut
- All 3 fire exits are clearly marked and lit and there is one in the main hall and one in the entrance hall that can be used by a wheelchair user to exit the building.
